Professional Summary

Software engineer with enterprise full-stack experience in TypeScript and React. Most recently designed and implemented an internal API Management platform that streamlined integration processes across teams. Also enjoys experimenting with Generative AI and building video games on the side.

Experience

Accenture Sweden, Software Engineer   Stockholm, Sweden
                                                                          Aug 2023 – Present

- Designed and implemented internal API management platform for client, including developer tooling, CI/CD pipelines, and platform services.
  (**Azure**, **Github Actions**, **Powershell**, **TypeScript**, **.Net**)
- Designed and implemented new features for mobile app, backend, and web platform.
  (**TypeScript**, **React-Native**, **Node.js**, **Firebase**)
- Implementation and maintenance of new features for client's e-commerce platform.
  (**Typescript**, **React**, **Jest**, **Git**, **Azure DevOps**)

Uppsala University, Teaching Assistant – Haskell   Uppsala, Sweden
                                                                          Nov 2019 – Feb 2020

- Helped students understand Haskell and programming concepts
- Ran lab sessions and supported students one-on-one with debugging and problem-solving

Education

MSc **Uppsala University**, Computer and Information Engineering   Uppsala, Sweden
                                                                          Sept 2018 – Jun 2023

- Master's thesis on Multi-agent Reinforcement Learning ⧉
- Bachelor's thesis on Image Classification using CNNs ⧉

Politecnico di Milano, Computer Engineering   Milan, Italy
                                                                          Sept 2022 – Jan 2023

- Exchange Semester

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, C/C++, C#, PowerShell, Haskell

Frameworks & Tools: Node.js, React, .NET

DevOps & Cloud: Docker, Azure, Firebase, GitHub Actions

Machine Learning: TensorFlow, PyTorch, Scikit-learn, Keras, Pandas, NumPy, OpenCV, Hugging Face Transformers, Gen AI APIs (OpenAI, Ollama)

Collaboration & Professional Skills: Effective communication, Cross-functional teamwork, Agile collaboration, Technical problem-solving, Code reviews & mentoring

Languages

Swedish Native
English Fluent
Italian Intermediate
